COURSE PLAN

Pre-Hospital Trauma Life Support

Prehospital Trauma Life Support (PHTLS) is the global standard in prehospital trauma education, offering a unique approach to trauma care through critical thinking to address multisystem trauma for the best patient care. PHTLS is developed in cooperation with the American College of Surgeons Committee on Trauma (ACS-COT). It is the preferred trauma program for the United States Armed Forces. This 16-hour course is offered in a 2-day classroom format, or as a 1-day online and 1-day classroom hybrid format.

		DAY 1 - March 10 th , 2018 (Initial Class Students Only	
Start Time	End Time	Description	Instructor
0800	0815	Welcome and Introduction	All instructors
0815	0915	Baselines (pre-test)	All instructors
0915	0945	Lesson 1: Introduction	Theron Becker
0945	1030	Lesson 2: Physiology of Life and Death	Theron Becker
1030	1045	Break	NA
1045	1115	Lesson 3: Scene Assessment and Primary Assessment	Theron Becker
1115	1200	Lesson 4: Airway	Theron Becker
1200	1300	Lunch	NA
1300	1345	Lesson 5: Breathing, Ventilation, and Oxygenation	Theron Becker
1345	1445	Lesson 6: Circulation, Hemorrhage, and Shock	Morgan Young
1445	1500	Break	NA
1500	1545	Lesson 7: Disability - Part 1	Morgan Young
1545	1630	Lesson 7: Disability - Part 2	Morgan Young
1630	1645	Break	NA
1645	1715	Lesson 8: Secondary Assessment	Morgan Young
1715	1745	Lesson 9: Special Considerations	Morgan Young
DAY 2 - March 11th, 2018 (Initial Class and Refresher Class Students)			
Start Time	End Time	Description	Instructor
0800	0830	Lesson 10: Summation	Theron Becker
0830	0930	Final Written Evaluation	All instructors
0930	1100	Simulation Scenario	All instructors
1100	1200	Lunch	NA
1200	1500	Final Simulation Scenario	All instructors
1500	1530	Debrief and Discussion	All instructors

Prehospital Trauma Life Support (PHTLS) is the continuing education program developed by the Prehospital Trauma Life Support Committee of the National Association of Emergency Medical Technicians (NAEMT) in cooperation with the American College of Surgeons Committee on Trauma (ACS-COT).
